1. The State Security is presently engaged in the preparation of lists of "undesirables" to be deported from Bucharest. The authorities reportedly will order out of the capital all persons not gainfully employed or who are considered to be "reactionaries."
2. It is reported that the deportations will be started after 1 January 1951, by which time the lists must be ready. "Undesirables" will be separated into three categories and deported by groups.
3. Militiamen have been ordered to investigate persons who are suspects or who have no regular occupation.
4. In connection with this plan for deportations from Bucharest a law was published in the Buletin Oficial, No. 101, 6 November 1950, requiring that all pensioners of less than sixty years be placed in the "field of labor" without regard to their capacity for work. Under the provisions of the law some pensioners would thus be protected from deportation.
